

Twelfth International Conference on Inertial Fusion Sciences and Application (IFSA)

September 25-29, 2023 *Hilton Denver Inverness* Denver, CO, USA

The 12th International Conference on Inertial Fusion Sciences and Applications, continues to bring scientists and engineers together in the fields of inertial fusion sciences, high-energy-density physics, and inertial fusion energy research. This will be the first major in-person conference focused on inertial confinement fusion since the recent achievements on the National Ignition Facility. The conference will include a strong emphasis on the new and growing private fusion industry including a dedicated session of plenary talks focused on this expanding segment of our community and a panel discussion. These topics offer exciting opportunities and challenges to the research community and will make for inspiring discussions during the conference.

Why Should My Organization Sponsor or Exhibit?

IFSA 2023 will be held in person for the first time since 2019, and will be attended by decision-makers, project managers, scientists, engineers, students, and educators from throughout the world who are engaged in one or more topical areas associated with fusion and high energy density science. By sponsoring or exhibiting at this conference, you will have the opportunity to network with leaders in the fusion field, as well as discuss your products, services, and organization.

Who Attends?

Around 360 researchers, scientists, students, and proponents of the advancement of fusion energy from around the world are anticipated to attend. With over 150 oral and poster presentations anticipated, coupled with one-of-a-kind panel sessions scheduled over a four-day period, you cannot afford to miss this unique chance to showcase your organization.

What are the benefits of sponsorship?

We are seeking corporate sponsorship of the conference to reduce the cost of student registration fees and meeting room expenses. With the growth of interest in inertial confinement fusion following the recent achievements on the National Ignition Facility in the United States and increasing numbers of private fusion energy-oriented companies worldwide, we are seeking to encourage more students in this community and providing them access to top researchers and institutions.

All sponsors and exhibitors receive:

- Logo on the conference tote bag given to all meeting attendees
- Exhibition Booth space for the full meeting*
- Logo on the main conference slides shown during breaks in the session and recognition during the meeting as a sponsor

*Limited exhibit space available for platinum sponsors. First come first served.

Platinum Level (\$10k)	Gold Level (\$6k)	Silver Level (\$3k)
<ul style="list-style-type: none"> • Booth (premium location by main conference rooms) • Three complimentary full meeting registration/meals (breakfast, lunch and snacks every day of the conference) (Nominal \$3k value) • Option to include company item inside the tote bag • Option to have up to a 2-minute video clip played in lobby display area • Panel discussion participant • Access to private room for on-the-spot interviews • Guaranteed plenary talk during the private industry presentation session (15 minutes minimum) 	<ul style="list-style-type: none"> • Booth (standard location) • Two complimentary full meeting registration/meals (breakfast, lunch and snacks every day of the conference) (Nominal \$2k value) • Option to include company item inside the tote bag • Option to have up to a 2-minute video clip played in lobby display area • Panel discussion participant 	<ul style="list-style-type: none"> • Booth (standard location) • One complimentary full meeting registration/meals (breakfast, lunch and snacks every day of the conference) (Nominal \$1k value)
